 Philadelphia, PA

WORK EXPERIENCE

- May 2016 - Present** **Web Developer**
[Drexel University, University Communications](#)
 - Work with University colleges and departments to maintain existing web presence and to build new digital infrastructure within the Sitecore content management system (CMS)
 - Use HTML, CSS, JavaScript, and jQuery to create visually intriguing, responsive, and accessibility compliant websites
 - Adhere to, enforce, and modify University editorial style guides, branding guidelines, and web standards
- Aug 2014 - May 2016** **IT Communication Group Intern**
[University of Delaware, Information Technologies](#)
 - Created HTML, CSS, and Javascript code to enhance user experience on IT's online help files
 - Branded and built the website for Blue Print 3D Studio on Wordpress using custom CSS
 - Hand coded the website for UD's new Information Security Plan, featuring dynamically-updating breadcrumb navigation using custom Javascript code
 - Wrote and edited UDaily articles, blog posts, and IT activity reports
- Feb 2014 - June 2014** **Social Media Content Manager**
[University of Delaware, Office of Communication and Marketing](#)
 - Managed UD's official social media accounts for students (Twitter and Facebook) using Hootsuite
 - Created original, weekly content and developed strategies for Facebook and Twitter
 - Created and analyzed weekly metric reports
 - Interacted with followers and acted like a PR professional
- May 2013 - Dec 2013** **Communications Intern**
[University of Delaware, Residence Life & Housing](#)
 - Produced graphics—mainly print—advertising campus events
 - Helped create communication about StarRez, UD's new student housing assignment software

EDUCATION
